

Degree Exemplification Policy

It is the Policy of the Tennessee Knights of Columbus State Council to exemplify the Degrees of the Order at separate times. The State Deputy and staff feel that having multiple exemplifications on the same day detract from the lessons of the various degrees. Degrees should be scheduled at least a month apart. One recommendation would be to have monthly First Degrees in your Council and request your District Deputy to organize an exemplification of the Second Degree at least quarterly. Always plan your Second Degrees well in advance of a Third Degree so the Ceremonials Chairman can compile the list of Candidate for the Third Degree.

The goal of the State Deputy is to have a First Degree team at each Council and a Second Degree team in each district. This will facilitate the frequent exemplification of the various degrees around the state and help the State of Tennessee achieve our goal of 1,000 new members this fraternal year
